Approved For Release 2000/09/08 : CIA-RDP76-00183R000300020251-3

DIARY NOTES - 5 June

1. Gordon Stewart talked to me about reallocating the remainder of our Supergrade ceiling in order to provide some relief for DD/P. He proposed, for example, to earmark one position in the Office of Personnel, one in Training, and one in the Management Staff for the DD/P Career Service. After some discussion I told him that I thought that this was shortsighted and merely an expedient and that we should study this problem more thoroughly from the long-range point of view, i.e., what is DD/P going to do with people like STATINTL [redacted] etc., when they come back to headquarters? He is going to take another look at the situation and review it with me before we present something to the Supergrade Review Board.
